# Contents

# 1   Introduction

This document describes the installation process for the „Simple Graph Calculator and Plotter" Windows application. As this software package is a prototype and therefore is not contained within a default Microsoft Installation Package, some additional installation steps may be required.

# 2   System Requirements

– Operating System: Windows 10 or higher

– .NET Framework: Version 4.8

– RAM: Minimum 4 GB

– Disk Space: Minimum 100 MB

– No administrative privileges required

# 3   Contents Package Contents

The application is distributed as a standard Zip archive and does **not** include a Windows Installer. The Zip contains:

– `SimpleGraphPlotter.exe` – the main executable

– `documents/` – folder containing the corresponding documentation

– `LICENSE.txt` – license information

# 4  Installation Steps

1. Extract the contents to a desired folder which does not require administrator privileges

2. Start the application and allow the execution of the application in case it is blocked by firewall- antivirus-software
